

AI Demo Night #12 — Run of Show

Thursday, September 10, 2026 · Apprentice, 101 Hudson St,
Jersey City
Internal · v2 Draft

Kennedy	Host / MC, stage flow, timer	Aaron	Opening remarks + partner thank yous
Angel	Keynote	MJ	Uplift kickoff + floor
Liz (Apprentice)	Venue, security, building contact	Apprentice IT	On site for AV
Name tag station	_____	Content / photo	_____

LOAD-IN & SETUP

3:45 – 5:00 PM

- 3:45 Venue access** Liz confirmed 3:45 to 4:00 access for setup. Everyone brings ID. Travel light, bags go through screening.
- 4:00 Room set** Auditorium seating for 80, expandable past 100. Rolly chairs and the couch stay in play. The 80 set is deliberate so photos do not look sparse.
- 4:15 Lobby and directional signage** Priority item from Liz: security should never turn a guest away. Signage in the main building lobby, then arrows to our floor. Printed arrows are the fallback.
- 4:20 Self-serve name tag station set** Tags laid out alphabetically, blanks and markers beside them, station sign with one instruction: find your name, peel and wear.
- 4:30 AV dry run on the Apprentice computer** Combined deck sent ahead and run from their machine. Two handheld mics, third as backup, our wireless as backup to that. Test the QR trivia embed.

UPLIFT KICKOFF

5:00 – 6:00 PM

Closed session. Fall cohort onboarding: this is the in-person version of the virtual onboarding, sold to founders as early access.

- 4:45 Uplift check-in opens** Same path: ID downstairs, name tag station upstairs. Doors to the broader event stay closed.
- 5:00 Onboarding deck** Expectations, guidelines, sessions, mentor meetings, how to log everything. Dad jokes cued on the slides.
- 5:30 Intros and fun facts** Meet your cohort. Aaron and MJ drop in for hellos, as promised on the event page.
- 6:00 Kickoff wraps** Hard stop. Founders stay for Demo Night. Walk them into the main room with a drink before outside guests arrive.

TECH CHECK

6:00 – 6:30 PM · demoers arrive at 6:00

- 6:00 CLICR** Harrison Wilkins, Lucas Martinez. Slides advance, mic level, confirm 5 + 5.
- 6:10 mobius** Caroline Turnbull pitching, Julia Suozzi attending. Live app demo, so test mirroring and wifi. Screenshot fallback in the deck.
- 6:20 Juricratic** Connor O'Dea, traveling from Denver. Confirm he has landed and is en route by 5:30.
- 6:25 Full stack test** All three decks in the combined file, in pitch order, on the Apprentice computer. Mics live. QR trivia and the audience vote both fire.

Venue & Logistics — Apprentice

From the planning call with Liz · 101 Hudson St, Jersey City

Apprentice is hosting and their team is on site. Liz owns the building, security, and IT coordination. Everything below came out of that call, so treat it as the agreement rather than a preference.

Security and building access

Liz owns · we supply the list

Everyone checks in downstairs in the main building. Government-issued ID required, guests included, no exceptions. Bags get screened, so tell people to avoid bringing one and to arrive early. Liz alerts security to expect unlisted attendees and will verify them with Kennedy in the moment.

OUR JOB Send the attendee list to the security portal. Liz said a few hours before the event is fine, so pull the Luma list late afternoon and send it.

SIGNAGE Lobby directional signage was called out as a priority so nobody gets turned around. Printable arrows are the fallback if the real signage is not ready.

OUR CHECK-IN Self-serve name tag station on our floor, not a staffed line. Building security is the actual check-in, so ours only has to be findable and stocked.

Liz was sending the building welcome and security language. Push that into a day-before email to registrants: check in at the main building, bring government-issued ID, avoid bags.

Room and capacity

Auditorium

Set for 80 in auditorium style, expandable past 100. Rolly chairs and a large couch are part of the room. The 80-seat set is intentional: a full-looking room photographs better than a half-empty one.

IF WE RUN PAST 80 Add chairs rather than starting wide. Better to add than to shoot rows of empties.

AV

Apprentice IT on site

Two reliable handheld mics plus a third, less reliable backup. TechUnited brings wireless backups on top of that. Everything runs off one Apprentice computer from a single combined deck, sent ahead of the day.

COMBINED DECK Opening, all three pitch decks in order, keynote, award slide, and the QR trivia embedded in the Google Slides. One file, no laptop swaps.

DAY-OF TEST QR trivia and AhaSlides get tested on the actual room setup, not assumed. That is the 4:30 AV window.

Apprentice slides may land late. Build the combined deck so their section can be dropped in without rebuilding the file.

Food and drinks

Networking window

Pizza, seltzer, and snacks during networking. No alcohol at this venue, so do not plan a toast.

DELIVERIES Loading dock. Vendors need a COI on file or Liz may have to go retrieve the order herself. Kennedy sends Liz two or three vendor options and she checks which COIs are already on file.

SUPPLIES Costco run can be delivered the day before or the morning of. Paper goods ordered separately.

What Apprentice needs from us

Attendee list for the security portal, the final combined deck and run of show, food vendor options, and photos after the event.

WHAT LIZ OWED US Building welcome and security language, and confirmation of Angel's keynote with Angel and John.

Pitch Showcase — Stage Intros

7:25 – 7:55 PM · 5 min pitch + 5 min live Q&A each

More than 100 companies applied in under 24 hours for three slots. Read the intro, get off the stage. Casing matters: CLICR is all caps in their materials, mobius is lowercase in theirs.

Pitch #1 · 7:25 — CLICR

Harrison Wilkins, Co-founder & CEO

Stage intro: Venues and events still count crowds with clickers, radios, and a group text. CLICR turns all of it into counters that communicate and one live dashboard: real-time occupancy, foot traffic, and crowd analytics from anywhere. More than 1.6 million guests counted, live crowd data for TikTok events, and all 215 events of Atlanta Tech Week 2026. Please welcome Harrison Wilkins.

ALSO HERE Lucas Martinez, Co-founder & COO

BACKING HCP Ventures

Grand Central, TikTok, House of Yes, The Hotel Chelsea, Electric Shuffle and SXSW are pilots, partnerships, and active user testing. That is how CLICR labels them. Do not introduce them as customers.

Pitch #2 · 7:35 — mobius

Caroline Turnbull, Co-founder & CEO

Stage intro: mobius is the social network for fitness built around community instead of metrics. Walks, runs, yoga, whatever movement looks like for you, it all counts and the community cheers it all equally. Live on the App Store, running their own events in New York, and already selling newsletter sponsorships. An engineer-athlete and an engineer-trainer. Please welcome Caroline Turnbull.

ALSO HERE Julia Suozzi, Co-founder & CTO. Comp code MOBIUSFIT is theirs.

DEMO RISK Live app. Confirm mirroring at tech check, keep a screenshot fallback in the deck.

Pitch #3 · 7:45 — Juricratic

Connor O'Dea, Founder, CEO & CTO

Stage intro: Most of legal AI right now is improving workflows that already exist. Juricratic is building a different class of legal intelligence infrastructure: live adversarial matter intelligence for litigation. Fork the case, simulate what the other side does next, and watch leverage and risk move as the facts change. Rehearse the lawsuit before you live it. First exit at 24. Please welcome Connor O'Dea.

TRAVELING Based in Denver. Confirm landing and arrival by 5:30.

The public description is deliberately thin by his choice, because the architecture is the product. His line: features can be copied, systems are much harder to replicate. Expect the room to push on what it actually does, and let him set the depth.

Keynote · 7:55 — Angel

20 minutes

Young New Jersey entrepreneur on why he built here. Personal story, possibly a product demo. Confirmed through Liz with Angel and John.

NEEDED Confirmation and his topic. He is not giving us slides, so there is nothing to load and nothing to test.

8:15 PM — Audience Choice Award, 10 minutes. Winner announced, then a photo with all three teams before the room breaks. Networking to 9:00.

Checklist & Open Items

Load-in 3:45 · Uplift 5:00 · Tech check 6:00 · Doors 6:30 · Stage 7:10

DECIDE BEFORE THURSDAY

- ☐ Angel and John confirmed for the keynote, plus his topic
- ☐ Keynote placement: after the pitches, or with Aaron in the opening as Liz noted
- ☐ Audience Choice voting method built into the deck
- ☐ Food vendor picked from the 2 to 3 options sent to Liz, COI confirmed
- ☐ Luma page still says networking at 7:45. Program now ends at 8:25
- ☐ Juricratic blurb sign-off, logo and headshot from Connor
- ☐ Black organic J file in public/ or Juricratic stays a typeset wordmark

SEND TO APPRENTICE

- ☐ Combined deck, in pitch order, ahead of the day
- ☐ This run of show
- ☐ Attendee list to the security portal, a few hours before doors
- ☐ Food vendor options for COI check
- ☐ Photos after the event

UPLIFT KICKOFF

- ☐ Onboarding deck loaded and tested in the room
- ☐ Uplift name tags printed
- ☐ Sign-in sheet
- ☐ Aaron and MJ briefed on the 5:30 drop-in
- ☐ Hard stop at 6:00 agreed with the lead

DOORS & CHECK-IN

- ☐ Self-serve name tag station: tags alphabetized, station sign up
- ☐ Blanks and markers for walk-ins at the station
- ☐ Signage in the main building lobby, then arrows to our floor
- ☐ Day-before email sent: check in at the main building, government-issued ID, avoid bags
- ☐ Comp codes recognized: MYGIFT, INSIDER, MOBIUSFIT
- ☐ Reserved front row for the three teams
- ☐ Board arrivals walked in, not pointed at a table

AV

- ☐ Combined deck open on the Apprentice computer
- ☐ Two handheld mics checked, third backup located
- ☐ Our wireless mics on standby
- ☐ Clicker paired and battery checked
- ☐ QR trivia / AhaSlides tested in the room
- ☐ Audience vote tested end to end
- ☐ Visible 5-minute countdown for pitches
- ☐ mobius mirroring tested, screenshot fallback in deck
- ☐ Music source for the 6:30 window

FOOD & FLOOR

- ☐ Pizza, seltzer, snacks confirmed with delivery window
- ☐ Delivery routed to the loading dock
- ☐ Costco supplies delivered day before or morning of
- ☐ Paper goods ordered
- ☐ No alcohol, confirmed with everyone bringing anything
- ☐ Room set at 80, extra chairs staged

PEOPLE

- ☐ Three teams sent the 6:00 tech-check time in writing
- ☐ Connor's travel confirmed, arrival by 5:30
- ☐ Angel's topic and intro line confirmed (no slides coming)
- ☐ Liz's phone number in hand, plus building contact
- ☐ Photo shot list: pitches, hands up in Q&A, keynote, award, room wide
- ☐ Someone owns the floor 8:25 to 9:00 while Kennedy is pulled aside
